

**Professionals: Try it for yourself, and compare with similar models on the market.**

A wonderful line of video magnifiers from Freedom Scientific, the Ruby, RubyHD and RubyXLHD are **American Made** with simple buttons, and one-touch on/off controls. All RUBY models have a crisp, sharp image, high-contrast modes, and built-in LEDs. The streamlined design means any RUBY can slip comfortably into a pocket or purse, giving you easy access to photos, letters, prescriptions, packaging labels, and menus, even in a dark restaurant.

### The Ruby

The RUBY is a small, 7.7 oz., on-the-go video magnifier, with a 4.3-inch screen which magnifies items from 2 to 14 times the original size with 5 contrast settings. View items and read text with ease even in dark rooms and store up to 15 images for future reference. Includes 4 AAA rechargeable batteries.

**Easy to use, feature-rich, and lightweight with easy grip handles, make the Ruby family a popular and budget friendly portable option.**

### The Ruby HD

The RUBY HD brings you crystal-clear HD images and advanced features in a compact, 8 oz. body with a 4.3-inch screen. Features include 20 high-contrast color modes, Reading Lines and Masks, Freeze frame, and the ability to store and transfer images. Includes 4 AAA rechargeable batteries.

### The Ruby XL HD

The RUBY XL HD has a 5" screen and a high-definition camera for the sharpest possible image. RUBY XL HD has all the advanced features in RUBY HD, plus a built-in reading stand that automatically powers on the magnifier when used and holds the screen at a comfortable angle as you move it across a page of text. 10.5 oz body with rechargeable lithium-ion battery.
