

## Introducing the Revolutionary Stella Lamp!

The Stella lamp is truly one of a kind - **super bright, customizable, LED light in a stylish housing.**

- **3 kelvin light color settings – warm, cool and natural**
- **5 brightness settings** that allow the user to adjust the light to their specific needs.
- **Lumen output** from 127 – 1410.
- **LED technology** only uses 10 watts of power, puts off very little heat, and the bulbs never burn out. Low cost of future use – a big plus!
- **Sturdy plastic and metal housing**, with a well weighted base. Yet light enough to be portable if desired (desk lamp version only).
- **Flex-arm technology** allows for maximize use of the lamp in any environment.

Available in a desk and floor models. The floor lamp comes with a wireless remote control and can be adjusted as high as 6 feet. Available in black and white.
