

## The Newest Addition to the Walters Family is Ready to Ship!

Introducing the Walters 3x9 close focus telescope. Available in a mountable or hand-held version.

The Walters 3x9 is an extremely lightweight (.8 ounce) 3x telescope. It has crisp and bright optics because of its superior quality glass lenses. The field of view is 12.5 degrees and it focuses from infinity to 7.5 inches.

All of Walters telescopes have a **LIFETIME WARRANTY** against manufacturer defects. **AND Walters telescopes CAN BE REPAIRED!** So, regardless of the cause of damage, any telescope can be repaired instead of the user having to purchase another unit.

**Choose Value. Choose Quality. Choose Walters.**
