

Exciting New Magnifier Lighting Options

Mattingly Low Vision is pleased to announce a new LED color option in our SMARTMag® LED magnifiers **AND** the addition of the SMDedge line of hand and stand magnifiers with a brand new SMD LED light source!

NEW SMARTMag® Warm White LED Option

We now offer 4 LED color options for SMARTMag® LED hand and stand magnifiers. These are not covers you place over an LED – these are LED's that emit true colors.

- Our Classic Cool White LED (the super bright brilliant LED we are known for!)
- **NEW** Warm White LED (similar to incandescent light color, also super bright and provides a preference option with no price difference)
- Yellow LED (for contrast, glare control and photophobia)
- Teal LED (for extreme photophobia and those who experience greater eye fatigue)

** SMARTMags ship with our classic cool white LED. If you desire another color, please specify at time of order. **

NEW SMDedge Line of SMD LED Hand and Stand Magnifiers

Our new line of SMD LED hand and stand magnifiers are **brighter and more energy efficient** than our line of LED magnifiers and have some exciting new features:

Lanyard included with hand-helds!

Hinged stand handle with adjustable stabilizer tab!

More tactile on/off switch on stand handles!

Call TODAY for a risk-free trial of our SMARTMag® or SMDedge Magnifiers!
