VE-2500 (Frolik™)
Bright portable light

- Brilliant LEDs project over 2,500 Lux at 16”
- Patented optics minimize glare and weigh only 0.4 oz.
- Plugs into AC adaptor, power bank, PC or other USB port
- Rechargeable, provides constant output for 3 hours per charge

Easy to slide on glasses, caps or visors

*Hold glasses by the bridge.*
*With the other hand, slide the light onto frames.*

- Slide clear clips over nose pads
- Plug in and flip on/off switch
- Tilt to shine on text
- Tuck cable over ear
Several ways to enjoy

To charge the power bank
1. Plug the charge cable into the small connector of 5v power bank
2. Plug the charge cable USB connector into an AC adaptor (90-240 VAC, 50/60 Hz) or USB port for 3 hours or longer

Important safety information
• It is normal for the illuminator to become warm due to LED intensity.
• Do not damage or puncture the battery in the power bank. A fire risk exists in such an event. Properly dispose of any damaged power bank.
• Do not use the AC adaptor if it is damaged or immersed in water, as it could pose a fire or shock hazard.
• Do not open the illuminator enclosure. There are no user serviceable parts; doing so would void the warranty.

Warranty and service
Jasper Ridge Inc. warrants the VisionEdge™ against defects in material or workmanship for 180 days from shipment and agrees to repair or replace. Warranty does not cover damage from normal wear and tear, misuse or abuse or cost of shipping. The illuminator clips have a lifetime guarantee.

See happy!
